Ecobath Plumbing Parts and Wastes BPIR Declaration

Version: May 2025

Designated building product: Class 1

Declaration

Ecobath Trading Limited has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/System

Name: Ecobath Plumbing Parts and Wastes

Identifier: Shower easy clean waste, basin popup waste, tile flange, mixer cartridge, cistern tap & hose, cistern inlet valve, shower hose & elbow, shower door rollers

Description

1. Shower Easy Clean Waste – A drain designed for showers, featuring an easy-to-clean mechanism to prevent clogging.
2. Basin Popup Waste – A sink waste unit with a pop-up mechanism for convenient water drainage control.
3. Tile Flange – A protective flange used in tiled walls to create a watertight seal around pipes.
4. Mixer Cartridge – The internal component of a mixer tap that regulates water flow and temperature.
5. Cistern Tap & Hose – A tap and connecting hose for toilet cisterns, ensuring proper water supply.
6. Cistern Inlet Valve – Controls water flow into the toilet cistern, often with a float mechanism.
7. Shower Hose & Elbow – Flexible hose and elbow joint for showers, allowing adjustable spray direction.
8. Shower Door Rollers – Wheels that enable smooth sliding movement for shower doors.

Scope of Use

Ecobath Plumbing parts and wastes must be installed by a suitably qualified plumber or tradesperson. Must be installed indoors.

Condition of Use

For proper installation, Ecobath Plumbing components and waste systems must be fitted by a certified plumber and used exclusively indoors.

Relevant Building Code

B2 Durability — B2.3.1 (b)
F2 Hazardous building materials — F2.3.1
G13 Foul water - G13.3.1, G13.3.2

Statement of Contributions to Compliance

B2.3.1(b):

Durability Requirements of Nominated Building Elements for Plumbing Fixtures.

The products have a durability of at least 2 years. The product is designed to enable the installer to comply with the building code when installed and maintained in accordance with our supplied instructions.

F2.3.1:

No materials used in the construction of Ecobath plumbing parts & wastes give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

G13:

This product is a sanitary fixture constructed and designed to be installed that facilitates sanitation. This product is sanitary fixture constructed and designed to be installed to allow effective cleaning.
